REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Independent Claims 1, 10, 11, 19 among other things teach the limitation "monitoring status for jobs in a first queue on a first system; monitoring status for jobs in a second queue on a second system different than the first system, the first and second systems are different systems connected through a network; a queue manager for managing the first and second queue; receiving a select request to cancel one of the jobs; not knowing which of the first and second queue currently contains the job associated with the select request and accordingly sending a cancel request to both the first and second queue; and removing an identifier for the selected job from the queue manager when a cancel confirmation is received from either the first or second system" defined in a multiple queue environment. Further defined for controlling the jobs automatically through commands sent over the network in conjunction with both the first and second queue at the same time in combination with the dependent claims 2-5, 7-9, 12-18.

The prior art does not teach the cited limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
